SUPERVISORY PATENT EXAMINER

Continuation of 10. Other (including any explanation in support of the above items):

Applicant is requested to delete the introductory subject matter about the invention under heading --summary of claimed subject matter--. Applicant's arguments drawn to the independent claims starting on page 4 last paragraph are fine.

Appellant has made reference to American Heritage dictionary in the appeal brief on page 8 and has listed a definition of the term "poll" in the evidence relied upon section without listing where it was entered by the examiner.

37 CFR 41.37(c)(1) states,

"Any appendix containing copies of any evidence submitted pursuant to 1.130, 1.3.1 or 1.1.32 of this title or of any other evidence entered by the examiner and relied upon by appellant in the appeal, along with a statement setting forth where in the record that evidence was entered in the record by the examiner. Reference to unentered evidence is not permitted in the brief. See 41.33 for treatment of evidence submitted after appeal." (emphasis added)

Further, 37 CFR 41. 337(c)(2) states,

"A brief shall not include any new or non-admitted amendment, or any new or non-admitted affidavit or other evidence." (emphasis added)

Appellant's attention is directed to 37 CFR 41.33 for guidance as to when evidence can be entered after the filling of a notice of appeal.

If Appellant has previously timely submitted the evidence referred to above, Appellant should provide a copy in the evidence appendix and a statement of when the evidence was entered by the examiner. If the evidence referred to above, has not been previously entered Appellant should consult 37 CFR 41.33 and/or remove the reference to unentered evidence for the appeal brief.
